June 23, 2021

Dear Court Leader,

The National Center for State Courts (NCSC) was founded in 1971 at the urging of the late Chief Justice of the United States Warren E. Burger. We are celebrating our 50th year and are so excited to be in person after 15 months apart. The NCSC’s mission has remained consistent: improving the administration of justice through leadership, research, education, technology, and consulting services.

Every other year, the NCSC sponsors the Court Technology Conference (CTC) designed to improve court efficiencies and effectiveness by educating court professionals about the latest breakthroughs and best practices in court technology. CTC 2021 is being held in Columbus, Ohio, September 28-29.

CTC provides judges, court administrators, court managers, technologists, and others with two and a half days of professional development, education sessions, and networking. Here’s how one attendee explained CTC’s value:

“This is the most productive conference that I have ever attended. This is probably due to relevance of the sessions to our project and we also see where technology is headed.”

NCSC is the only national court organization dedicated to helping the justice system use technology to improve services, reduce costs, and increase accountability. We understand that in order to attend CTC 2021, your court professional will need financial support and time away from the office to gain the education, resources, and networking necessary to successfully fulfill their duties.

Average cost for CTC 2021 includes:

- Registration: $800
- Hotel: $165 - $187 plus 10% Hotel tax and 7.5% state tax, per room
- Meals and Incidental: Government per diem for Columbus is $61 per day

This educational opportunity is uniquely designed for court professionals. I encourage you to provide support so your staff can develop skills that will enhance your court.

Thank you,

Mary C. McQueen
President, National Center for State Courts
